Vandra Rugs luxurious handwoven rugs combine design with the highest level of craftsmanship. As a Swedish heritage luxury lifestyle brand, we continuously strive to act in a respectful and sustainable way towards both people and the planet. All rugs are made to order, up to maximum six meters wide and any length, in our own atelier in the Carpathian mountains.

The atelier mainly employs women, both as weavers and in managerial positions. The Vandra Rug can add a modern twist to classical surroundings while modern surroundings can be softened and personalised by the hand-crafted touch. For the full collection, we invite you to explore www.vandra-rugs.com
