Vandra Rugs is thrilled to announce the **Seasons Tapestry Collection**, a new series of tapestry rugs designed by **Ami Katz**. Inspired by the vibrant colours of the changing seasons, this collection brings the beauty of nature and mythical creatures into a space. Born from years of watercolour sketching, each piece reflects a harmonious blend of motifs and colours.

Seasons originated from Ami's paintings, capturing the essence of spring, summer, autumn, and winter. Its design allows for the choice of a single season, mirroring the pattern for a more complex appearance, or combining multiple seasons for a diverse colour palette.

"The Seasons Tapestry Collection allows us to bring the changing beauty of the seasons indoors, offering versatility and a connection to nature in each piece," says Ami Katz.
