

Vandra Rugs

Vandra Rugs proudly introduces **Miho** and **Berthillon Blue**, exquisite creations by designer Lars Nilsson. Combining Scandinavian landscapes with urban elements, Lars introduces his signature non-repetitive stripe patterns in a herringbone weave, using natural wool, linen, and the luxurious touch of undyed sheep's fur, giving each design the artistry and quality of couture pieces.

Miho: Inspired by New York florist Miho, this rug features a refined autumnal palette with hues of rust, sweet-pea purple, dusty peony pink, and moss. Woven in wool yarn using a herringbone technique, **Miho** includes natural sheep fur accents, creating a bold and elegant piece.

Berthillon Blue: Drawing from the serene tones of northern summer horizons and the works of Peder Severin Krøyer, this luxurious rug blends blue delphiniums, forget-me-nots, and aqua anemones. Woven in wool yarn with a herringbone technique, **Berthillon Blue** captures light and freshness in a contemporary design.

About Lars Nilsson

Lars Nilsson, a Swedish designer and Council of Fashion Designers of America member, has built a successful career, working with renowned fashion houses like Chanel, Christian Lacroix, and Balmain. He has since evolved into the world of interior design, bringing his unique vision and expertise to new creative projects.

About Vandra Rugs

Vandra Rugs' handmade rugs blend design and craftsmanship, using high-quality natural materials like cotton, wool-felt, wool-yarn, and linen. Since 2007, they have established a weaving atelier in Ukraine, where skilled weavers, trained in local traditions and by Swedish experts, bring a rich diversity to the collections.
