

# Vandra Rugs

Inspired by the iconic Malmstenbutiken in Stockholm, **Pietra** is a new rug collection designed by *Ami Katz*. Rooted in the shop's heritage, the design features a symmetrical chequered pattern with strategically deleted lines, offering a modern graphic touch in black and white. The collection, in various colorways, blends natural hues with a contemporary twist. Available in both an exclusive knotted pile or a röllakan version, Pietra seamlessly combines the old and new in interior design. During 3 Days of Design the **Pietra collection** is presented in several new colourways.
