

Vandra Rugs

Joyn Studio, a leading interior architectural studio in Stockholm, celebrates the ongoing success of the **Zebra** rug, designed for Vandra Rugs. This playful yet sophisticated design adds a modern twist to traditional woven rug.

“We wanted to create a traditional lined woven rug but with a twist. The idea just appeared in front of us and felt so simple, fun, and obvious that we just could not resist it,” says the Joyn Studio team.

The **Zebra** rug features a bold graphic pattern that captures attention and sets the tone for any room. Woven with Draell and flat technique, making it suitable for contract interiors, the rug features striped details and a tail crafted from linen yarn, adding a unique touch. Available in colourways Black & White, Stormy Blue & Black, Ochre & Nature and Black & Brown. Additionally, the **Zebra** rug is showcased at the Michelin-starred restaurant Frantzén in Stockholm.

About Joyn Studio

Joyn Studio, a Stockholm-based interior architectural studio founded by Helena Eliasson, Lisa Grape, and Ida Wanler, has undertaken notable projects such as the Swedish Design Association’s Milan Exhibition and the acclaimed Frantzén Restaurants, alongside various commercial spaces. Their approach involves thorough cultural research to ensure each design resonates with its environment.

About Vandra Rugs

Vandra Rugs’ handmade rugs blend design and craftsmanship, using high-quality natural materials like cotton, wool-felt, wool-yarn, and linen. Since 2007, they have established a weaving atelier in Ukraine, where skilled weavers, trained in local traditions and by Swedish experts, bring a rich diversity to the collections.
